

A Different Kind of Pharmacy Support

For a safer and easier way to
take medications as prescribed

Making sense of your medications can be stressful, especially if you take multiple pills every day. ExactCare can help.

Feel More Confident

- Custom packaging helps you better understand how and when to take your pills
- Electronic medication reminders and notifications help keep you on schedule

Stay Safer and Healthier

- Your medications are reviewed monthly for potential health risks
- Recommended medication changes are coordinated with your doctors

Enjoy Less Stress

- Monthly medication delivery means you don't have to chase down refills
- Your account and medication information is accessible at any time

ExactCare Helps You Stay on Track With Your Medications

Custom Packaging

Medications pre-sorted and packaged in packets by day and time. This helps you take your medications as prescribed.

Monthly Medication Delivery

Monthly deliveries can include prescription and non-prescription medications, as well as vitamins, supplements and topical medications.

MyECP Mobile App

This secure, online patient portal gives you access to your account and medication information at any time. Get medication reminders, delivery notifications and more! You can also share access to your MyECP account with family members or caregivers.

Ready to get started with ExactCare?

Your healthcare team can connect you with ExactCare Pharmacy for help with your medications. If you want to get started sooner, call ExactCare at **1-844-287-1609**.
